EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Curtis on 3/15/2006.

The application has been amended as follows:

IN THE CLAIM

Re. Claim 23: After the phrase "predetermined distance" as recited in line 12, insert a phrase of --, wherein the partial insulating layer is formed to extend from a top of the bottom pole layer to a top of the first insulating layer--.

Cancelled claim 24.

Re. Claim 25: Before the phrase ",wherein" as recited in line 2, change the phrase "Claim 24" to --Claim 23--.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as the partial insulating layer is formed to extend from a top of the bottom pole layer to a top of the first insulating layer. The closest reference, Sasaki teaches all of the limitations including a partial insulating layer formed on the bottom pole layer with the gap layer provided therebetween to start from a position at a predetermined distance from the surface facing the recording

medium so that a gap depth is regulated by the predetermined distance. However, the partial insulating of Sasaki is formed on top of the bottom pole layer and the first insulating layer, not extended from a top of the bottom pole layer to a top of the first insulating layer as recited in the claimed invention. Therefore, it would not be obvious to modify Sasaki by forming the partial insulating to extend from a top of the bottom pole layer to a top of the first insulating layer, since doing so would destroy the structure of the thin film magnetic head of Sasaki.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 23, 25 and 26 are allowed.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul D. Kim whose telephone number is 571-272-4565. The examiner can normally be reached on Monday-Friday between 6:00 AM to 2:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Vo can be reached on 571-272-4690. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
